Top Notch FR® is a solution dyed polyester flame retardant fabric. Utilizing a proprietary coating on the underside, Top Notch FR® will provide unparalleled flame resistance, water resistance, and tear resistance, all while not stretching, shrinking, or sagging. Top Notch FR® meets most known flame retardant specifications, both initial and leaching. That means that unlike other fabrics, you don't have to worry about still meeting a flame specification after it has been exposed to the elements. As part of the Top Notch® family of premium solution dyed fabrics, it will provide exceptional colorfastness. Top Notch FR® is perfect for awnings, tents, gazebos, canopies, or any application requiring colorfastness and flame resistance.
